Connecting people to Jesus, one another, and ministry.

New Hope Family,

Last weekend, President Trump's announcement deeming churches as "essential" has prompted a few questions about our plans for resuming corporate worship services at our facility. The bottom-line is this: We do not have immediate plans to gather corporately as there are many factors to be considered.

The guidelines released in conjunction with the President's announcement would allow only a fraction of our congregation to gather at any given time and then only with masks and adequate distancing (and probably no coffee!). Frankly, this is much less than ideal.

Currently, the Session is reviewing and interacting with a plan I submitted to them that would consist of fellowship, teaching, live music, and the celebration of the Lord's Supper in the context of neighborhood or parish groups. Please pray that God would give us wisdom and grace to navigate these decisions and stay tuned to Facebook and YouTube for continued updates.

In his grip,

Pastor Tommy
