

Our Well Child Policy

Good Health Guidelines

We want to provide a healthy environment in our classrooms, so we ask you to keep your child at home when you observe any of the following:

- Fever/Vomiting
- Discharge in or around the eyes; Green, gray or yellow runny nose; Excessive coughing
- Diarrhea
- Questionable rash
- Any communicable disease

If your child becomes ill while in the classroom, you will be notified promptly.

If your child is being treated with an antibiotic, he or she should have received treatment for at least 24 hours before coming to the classroom.

For your child's protection, we ask our caregivers to follow the same guidelines.
