### PORNOGRAPHY

Sex and porn addictions are real problems in our world. This type of addiction can seem harmless to the person engaged with the activity and they may not see it as a problem. However, the opposite is true and the person can end up in an unhealthy cycle that can harm relationships, finances, health, and careers. We believe that Jesus is the answer and that He meets people where they are. In fact, Jesus tells us that He not only came to save but to set the captives free (Luke 4:18-19). It is never too late to be free from your addiction.
