

LITTLE RIDGE

HEALTH AND WELLNESS POLICY

It is our goal to provide a safe and healthy environment for every child who comes to Little Ridge. Along with the health and wellness procedures our staff will be taking, we ask you to be mindful of our sick/wellness policy. **Children should stay home if not feeling well, or if any symptoms of illness are evident.** Please notify the program immediately of any communicable diseases your child may be experiencing since their last visit to Little Ridge. **Children must be fever-free for 48 hours without a fever reducer. If a child is prescribed antibiotics, he/she must be on them for 48 hours before attending Little Ridge.**

If your child is experiencing any of the symptoms below currently or in the last 24 hours, we ask that you keep them home until they are well:

constant cough, diarrhea, earache, fever over 99.2, heavy nasal discharge, open wounds, nausea or vomiting, lice, skin rash or sores, sore throat, mucus that is yellow/brown/green, eyes that are inflamed/red/swollen

Thank you for being part of Little Ridge.

Thoughtfully,
The Little Ridge Team
