

# Del Rey Church

Real Life. Real People. Real Faith.

February 23, 2018

Hello Church,

I can't believe 2017 has already passed us by! This year we had plans to do some renovations on our 2 parsonages but those plans were put on hold. We had a lot of little projects that kept us busy for the year, but most of our work was just maintenance or repairs to things. A few of the bigger things we accomplished were:

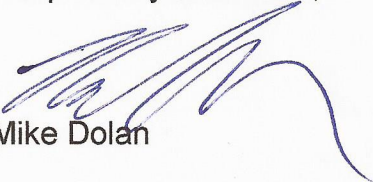

- Replaced all the old windows at Parsonage 2
- Helped a family in need build a new fence, repair stucco & re-roof their home
- Paint interior of Kitchen
- Repair holes in ceilings
- And clear out every drain on campus!

I will submit another recommendation to our Elders this year for some improvements we can make on our properties depending on available resources. They will mirror most of the items from 2017 and a few new things for 2018!

- Kitchen remodel Hawthorne Property
- Mainline drain replacement Hawthorne Property (It is currently repaired and working)
- 2<sup>nd</sup> Bathroom remodel Westchester Property
- Parking lot repairs around Timothy hall (fixing leaks)
- New security cameras throughout campus (Our system is aging and in need of upgrading)

With 55 year old buildings we are always finding something that needs repair, so please stay diligent and let us know when things need repair! I don't see everything and something's I have become blind too, so keep the information coming.

Respectfully submitted,

Mike Dolan
