Grace Bible Church Gainesville "Mask Policy"

In accordance with the State of Florida Phase One re-opening recommendations, we have adopted the following "mask policy" for our in-person Sunday morning worship services:

- 1) Bringing and wearing a mask (disposable or reusable) is highly recommended and encouraged when coming to our in-person service, but not mandatory.
- 2) We encourage folks to wear their masks when walking about and talking with each other in and around the building. You do not need to wear your mask when seated during the service or during our singing times as we expect to have sufficient space between people in the conference room to provide adequate social distancing.
- 3) A limited supply of disposable masks will be available for people who do not have one. If you have your own mask, please bring and use it so that we can reserve our supply for visitors or those who do not have any or could not get one.

For any additional questions or concerns, please contact Philip Chang or Pastor Brandon.
