### Family Discussion Questions

#### Worship Questions

What song did you really enjoy during worship time?

What does this song mean?

#### Lesson Questions

What were the points of today's lesson?

What did you learn from the lesson that you should do different this week?

Was there anything you did not understand from the lesson?

#### Prayer

What ministry in the church can we pray for this week at home?

## JUST A THOUGHT...

Too many adults who learned how to be quiet in church are still doing just that. And many of them are passing this along to their children. A family can learn to sit still very well, but be unmoved by the holy presence of God.
