

TGN 2015 Testimonials

This was my second TGN. This time I became more keenly aware of geographical locations and the importance of knowing them, and how much depth it adds to the reading. Also, I found it easier to sequence events. The timeline and other charts are very helpful.

I had some doubts about participating in this study, but I'm so glad I didn't let them stop me. I loved spending daily time reading the Word. I loved the discipline it added to my morning routine. I looked forward to the Wednesday evening class and discussions. While I had read the entire Bible on my own before, I learned so much and have a much better understanding of the big picture. Everything makes so much more sense now that I've done this course!

I feel like a door has been opened, a foundation laid, and a larger perspective gained. Reading the Bible all the way through helped to see God's unwavering plan. The intense reading plan set a time with God that I would not have normally done. I thoroughly enjoyed each and every moment. The reading structure, meetings each week, and encouragement from Brian helped to keep me on course. I look forward to TGN in the future with our boys! Thank you for your love for Christ and helping others to get to know Him in a more intimate way!

While life got in the way of completion, I have every intention of finishing up what I consider to be one of the most eye-opening experiences of my life. I sincerely appreciate the effort that the team puts in to running TGN and look forward to participating again!

I like the whole experience, especially the push to keep reading in order to keep up with the weeks lesson.

Loved it all! Loved the challenge, didn't "dig" in as should have but intend to improve next time. Was proud of the accomplishment & encouraged in the accountability:-)

I have not completed the plan in the order given, but have (in a more random order) read through the Bible in the last year. It was my first time doing so. I hope to complete the TGN reading plan this summer.

TGN is wonderful! Reading together with friends has positively impacted my relationship with Jesus.

Always helpful to go through a challenging experience like TGN with a large group for support, encouragement, learning from others, etc.

Once again, TGN was a great experience. I found keeping up with the reading was much easier than the previous 3 times because of familiarity with the text and knowing how to

approach the reading. God's word is like a diamond, revealing a different facet every time you read it.

I still plan to complete the reading assignments.

It was really quick, so you did see the story of the bible from 30,000 feet. It put things into a new perspective for me. You could really see how one person affected so many people over time.

It was nice to be part of a reading group so I could compare my thoughts and reactions to those of others.

Funny how every time one reads the Bible, something “new” is gleaned. This time I tried to have a map near me, which added quite a lot, so I really appreciate your map moments :) I'd love to see prophecy hit a bit harder as so much of the Bible deals with it. I would suggest maybe something for us to jot down thoughts about insights received- kinda like what happened year before last. It's so easy to think I'll remember to ask about something or say what was learned, but memory doesn't always last until Wed. nite : (Great experience, so thank you and Mark!!

The knowledge and insight that both Brian and Mark shared really brought a greater understanding to the readings.

TGN is wonderful! Reading together with friends has positivity impacted my relationship with Jesus.

The whole experience was very meaningful to me and as I stated on the questionnaire, both you and Mark shared great insight into the history and culture of the time.
