

NAVIGATORS OF CAMEROON; STUDENT AND COMMUNITY MINISTRY

February 2018

Greetings!

I am glad I am able to reconnect. We thank God for his mercies that are new every day. Mary and the kids are doing ok though with little illnesses.

It's been a difficult time with us surviving with the pressures of the crisis and coping with ministry demands. But in all these, we are glad His strength is sufficient in our weakness.

We hear gun shots ever night and people are being tortured here and there. But we remain hopeful. The children are going to school despite the threats and uncertainty.

A brief about our ministry:

1) We have recruited some 35 young guys and have engaged training them for leadership from across our (Mary's and my) ministry platform. We have had the first training and we will be meeting 4 times a year for day retreats for the next five years to focus on **Intimacy with God, Imitation of Christ's Character and Impact on the lost**. This is the heart of our ministry and requires the greatest part of our energy. Please keep praying for wisdom and resources.

2) Last weekend, we had a seminar with young couples and would be couples on family discipleship, marriage covenant and family life.

3) In two weeks, we will be doing an evangelistic thrust in a rural community with the aim of connecting the hearts of our trainees to the actual ministry platform.

Lastly, thanks to Morningside Bible Church for your immense support. The more we are financially stress free, the more is our engagement.

Please greet all for us.

Blessings and grace

Vincent and Mary
