

The Trellis Project

bringing God glory. making disciples. sharing God's love.

Question Two

What safety measures will be put in place to accommodate the necessary street crossing?

The safety of our congregation is of top consideration for our church's leadership. Accordingly, when we reach the point where parking across Old Manchester becomes a necessity for the church family, we will be providing crossing guards and working with city officials to install appropriate signage and official crosswalk designations. In addition, when this time comes, we will consider providing a shuttle from the parking lot to the entry of the church (especially during inclement weather).
