Sanctity of human life: “the belief that all human beings, at any and every stage of life, in any and every state of consciousness or self-awareness, of any and every race, color, ethnicity, level of intelligence, religion, language, gender, character, behavior, physical ability/disability, potential, class, social status, etc., of any and every particular quality of relationship to the viewing subject, are to be perceived as persons of equal and immeasurable worth and of inviolable dignity and therefore must be treated in a manner commensurate with this moral status.”
