A BIBLE STUDY
FOR ELEMENTARY
STUDENTS

THE S.O.A.P. METHOD OF BIBLE STUDY

What is the S.O.A.P. method of Bible study?

-The S.O.A.P. method of study helps people learn to read and study the Bible for themselves. It consists of four parts: Scripture, Observation, Application, and Prayer. Each of these steps will help your child break down the text they are reading, think about what it is saying and how they can apply it to their lives, and respond to God's word in prayer.

How to use the S.O.A.P method (for kids)!

-Depending on the level of your child, you can modify this method of study based on their needs and individual capability. This study is designed to be an independent Bible study, with the goal of teaching your child the discipline of time alone in God's word and prayer. For our younger children (Kindergarten-2nd grade) you may want to read the questions with them and help them write or draw responses.

-**Scripture**: Have your child read or listen to the assigned daily scripture. Then, have them choose one verse to copy in the designated space or in their own journal.

-**Observation**: Have your child **write or draw** what is happening in the passage. They can use the 5W's and H questions to think about what the text says (Who, What, When, Where, Why, How). We have also provided some questions to guide their thinking, if needed.

-**Application**: Have your child **think about how** this text applies to their life, today and every day. Is there something God is asking them to do in the text? Sin they need to repent of? Actions they need to take in their walk with Jesus? We have also provided some questions to guide their thinking in this area.

-**Prayer**: In this space, encourage your child to **respond to God** in prayer. If there is something from the application section that they learned, guide them in asking God for help in that area. There is space provided for them to write a prayer, or they can speak their prayer.

Parents, we encourage you to spend a few days walking through this process with your child, then give them the freedom to run with it on their own! You are teaching them first hand a skill that is crucial to a closer walk with God...daily time in His word!
