

# A Virtual Place of Prayer

**Monday, May 11th at 2:00 PM**

Join the pastor on “Zoom” as he reads the Daily Lectionary and leads in prayer. There will be a time when those who are in the electronic gathering can share prayer concerns. You can participate in this group by computer or telephone. Instructions are listed below. If you are joining by computer and wish to share a prayer concern with the pastor only, you may use the “chat” feature located at the bottom of the screen and send him a private message. If you are joining by telephone, you may email him any private prayer requests that you have at [prayers@rccpc.org](mailto:prayers@rccpc.org). (Please note that participants will be muted upon entry into the group and will be unmuted shortly after the meeting begins).

You can join the study by computer, Ipad or telephone. (Note that if you enable your camera and microphone, those who have also joined by camera can see you and you can see them.)

**To join by computer, use the below link:**

# Instructions for using Zoom

For the foreseeable future, we will be using the online platform called **Zoom** for meetings and online gatherings. One of the great things about Zoom is that you can access a meeting from a computer, or any kind of telephone, including landlines. To get the most out of it, we recommend using a computer with a camera or a smartphone so that you can see who is also in the meeting and be seen by others. However, if you aren't able to join a meeting with equipment that has a camera and microphone, you can call the number listed in the invitation. Smartphones can use the OneTouch Dialing feature and do not need the Meeting ID. Traditional phones will require punching in the Meeting ID after dialing the number.

If you are calling in by telephone and you get a busy signal, keep trying the various phone numbers listed in the meeting invitation.

When you first use Zoom you will be asked to download Zoom software onto your computer. While the process is automatic, you may wish to do it prior to your first Zoom meeting or gathering by clicking the link to the gathering.

## During the meeting:

If you have trouble with audio or video, you can always default to the conference call option.

It's a good idea to mute yourself when you are not speaking. This cuts down on feedback and background noise. The host has the power to mute and might use it from time to time when appropriate.

If there are people in the meeting who have called in and whose picture is not on the screen, it is critical that everyone identify themselves when they want to speak so those who do not have access to the video feed will know who is talking.

There are a variety of ways that the view on the screen can be changed. Typically, you will find these options at the top right of your screen.

There may be times that we will be utilizing the chat feature. Chat enables a participant to ask a question or make a comment without interrupting the flow of a meeting. Participants can send a message that everyone can see or they can select only certain participants. To enable Chat while in a meeting, click on "Chat" at the bottom of your screen.
