A Giant Staircase to Heaven

Here is the [video link](#) to our story this week.

Craft – Towers

This week we will be making colorful small towers to remind us that no matter what we do or make we can't create a way to God, He made a way for us.

For today's craft you will need two pieces of paper, crayons, scissors and some tape.

1. Start by coloring one piece of paper with many different colors--just color and create all over the paper.
2. Fold your piece of paper in half so that the colors are all on the inside. And then cut a tower like shape out of your paper.

3. At this point you could add some windows and maybe some stairs if you want. Fold a strip at the very bottom of your tower back.

4. Make three small loops with your tape and put them in the middle of your second piece of paper. You can then stick the strip that you folded back onto the tape.
