Son of Laughter

Here is [the video link](#) to our story this week.

Craft – The Starry Sky

This week we will be making bright stars in the night sky. This craft reminds us that nothing is impossible for God!

For today's craft you will need a piece of paper, a yellow crayon and some blue or black watercolor paint.

1. Parents, you will need to draw a few stars on the piece of paper for your little one to color in.

2. Encourage your little one to color in the stars completely so that they will really pop when we finish the project.

3. Now is the time to get a little messy. Give them the watercolors and have them color all over the paper, all over the stars.
