### The Girl No One Wanted

Here is the [video link](#) to our story this week.

#### Craft – A Baby in a Baby Carriage

This week we will be making little babies in baby carriages. This is a reminder that God loves us no matter what the world thinks, just like He loved Leah and gave her a little baby, and one day her great great great great great... grandson would be born to take away the sins of the world. For today's craft you will need some colored paper, a paper plate, glue and something to color with.

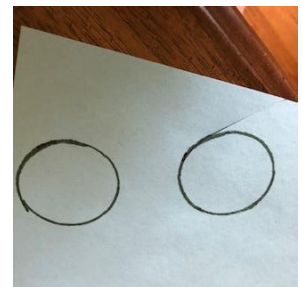

1. Parents, you will need to cut a paper plate in half. Then have the little ones glue the two halves together to make a little stroller shape. Color in your stroller.

2. Next cut out a little oval and a small hand shape from some colored paper. Let the little ones draw a face on the oval, and then glue the oval on the back of your stroller so that you see the face poking out from the front. Do the same with your little hand.

3. Using a cap, or the bottom of a small glass help your little one to trace two circles onto a piece of colored paper. Help them to cut out their circles.

4. Glue your circles to the bottom of your stroller for your little wheels.
