The Light of the Whole World

Here is the [video link to our story](#) this week.

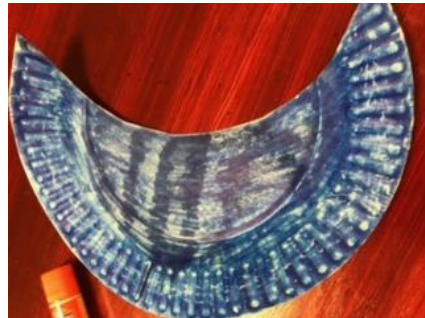

**Craft – Star and Moon**

Today's craft is a star hanging in the night sky. The shepherds in our story saw the special star that God put in the sky and it showed them where Jesus was. Just like that star, Jesus shows us the way to go, if we look at Him and trust in Him we know that we are going the right way.

For today's craft you will need, a paper plate, a piece of yellow paper, something to color with, scissors, and glue.

1. First you will need to draw a half moon shape onto the paper plate, and a star on your yellow piece of paper.
2. Next, help your little one to cut out the star and moon.
3. Color the paper plate in blue

4. Lastly, glue the star to the tip of the moon.
