

A little girl and a poor frail lady

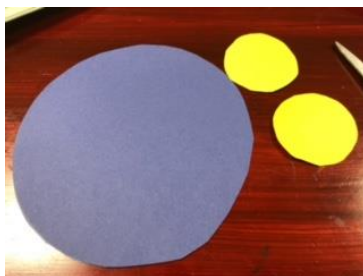

Here is the [video link to our story](#) this week.

Craft – Alarm Clocks

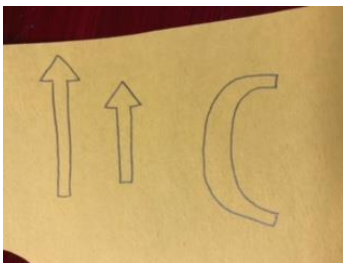

Today's craft is an alarm clock. In our story we see that everyone was so afraid of the time. Jairus thought Jesus was going to be late, and needed to rush. Jesus can't be late for anything. We are making alarm clocks today to simply remind us that we don't need to be afraid that God won't get things done in time!

For today's craft you will need some colorful paper, scissors, glue, something to write with, and a bowl and a cup to trace.

1. Today's craft will involve quite a bit of tracing a drawing for the grown ups, and helping the little ones to cut out the shapes. Start by tracing a bowl onto a piece of paper. Then trace a cup onto a different colored piece of paper. Help your little one to cut out the shapes.

2. Next you will need to draw a couple of watch hands and a handle and cut those out.

3. Glue your handle to the two smaller circles and then glue that onto your larger circle

4. Flip your clock over and add numbers to your clock and glue on the hands of the clock.
