

How To Pray

Here is the [video link to our story](#) this week.

Craft – Cell Phones

Today's craft is a cell phone. We can be reminded that our conversations with God can be like a person on speakerphone. We can talk to him whenever we need to, there isn't a secret code or special word we need to use, he is always there wanting for us to talk with him.

For today's craft you will need some colorful paper, a paper plate or a piece of cardboard, scissors, glue, something to write with, and a cell phone or other rectangular object to trace.

1. Cut out the rectangle on the plate, and then cut out the rectangle on the paper, but cut that one out slightly smaller than your outline.

2. Glue the paper onto the paper plate, you can also draw a little circle on the bottom if you are making an iPhone.

3. Help your little one to make draw the screen on the phone.
