

The Singer

Here is [the video link](#) to our story this week.

Craft – Birdies

Today's craft is a bird. We can be reminded that the birds and flowers don't worry about anything, and that God provides for them. How much more will God provide for us whom He loves so much! We can have hearts free of worry and sing our song of praise to God.

For today's craft you will need some colorful paper, a paper plate, scissors, glue, watercolors or something to color with, a black crayon and an orange marker.

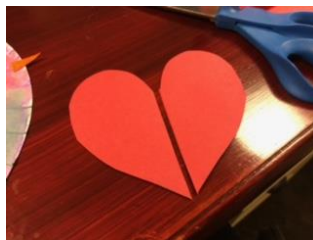

1. Help your little one to cut the paper plate in half. Use your black crayon to draw a little eye on the plate like shown.

2. Next, draw on the other half of the paper plate little feet and a beak. Help your little one cut these out.

3. Fold the red piece of paper in half and draw two half hearts on the fold. One about three inches in length and one about two inches in length. Help your little one to cut out both hearts, cut one heart in half

4. Use an orange marker to color in the beak and the feet. Use the watercolors to color in your paper plate. Glue the feet and beak onto your bird. Glue your smaller heart onto the end of the bird as a tail, and half a heart on for a wing.
