

God Makes a Way

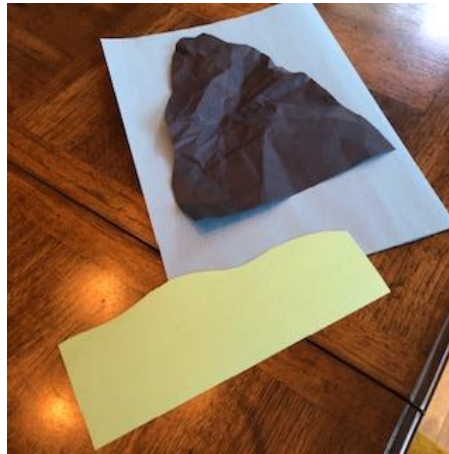

[Here is the video link to our story this week.](#)

Craft – Mountain Meeting with God

This week we will be recreating the scene from our story when God comes and talks with Moses. We can remember that God is so good, He comes to us to make a way for us to have a relationship with Him.

For today's craft, you will need: scissors, colored paper, glue, cotton balls, & a yellow or silver crayon.

1. Take a brown or black piece of paper (whichever color you would like your mountain to be) and crumple it up.
2. Smooth out your crumpled paper and cut a mountainous triangular shape out of the paper. Also cut a strip of paper out of some green or maybe some sandy colored paper for the ground.

3. On a blue piece of paper glue down your ground piece and your mountain.
4. Pull some cotton balls so they are not perfectly round and glue those on for clouds and place some lightning bolts in the sky with either yellow or silver crayon.
