## Miriam Does Her Part

Here is the [video link to our story](#) this week.

### Craft – A Mother’s Day Card

Today we are going to make a fun card for our moms. This is a great craft for dads or siblings to help with.

- All we will need for this week’s craft is a piece of paper (maybe mom’s favorite color), and some crayons.
- Start out by folding your piece of paper in half like a card. To make the front of our card we start with a flowerpot.

- Next trace your child's hand so that you have stems to your flowers.

- Then draw some small flowers and let your little one color everything in.
- They can fill the inside with hearts, or if they are able their name, stickers are a great way for little ones to decorate as well.

I miss you all so much. I am sure your moms will love getting cards!!
