# PERSONAL STUDY HOMEWORK

Week of August 8-12

## Getting Started .....

It is wonderful to know when we are loved. How do people who love you demonstrate that love? How do you demonstrate your love for others?

## Getting Into God's Word .....

Read Matthew 22:37-38

1. Why is it important for us to learn to love God and to let God love us? What is a simple definition of worship?

Read Acts 2:42-47

2. What adjectives would you use to describe the church written of in this passage? What was most important in the first century believers' lives together?

## Applying It In My Life .....

1. What do we learn from the attitudes and actions of the early church that we should incorporate into our own lives? How might their example affect how you get involved in church? What essential elements should be included within worship services today?
2. Look at Pastor Ty's list of how we celebrate or worship God. As a church family which ones are we good at? Which ones are a challenge for us as a church family? What could you do to grow in any of these?
