

During our most recent Board of Lay Ministry meeting on Sept. 8, 2020 we reviewed and discussed the protocols we have in place, including congregational singing. While everyone agreed on the importance of congregational singing, it was decided that it will continue to be temporarily suspended at this time. This difficult decision was largely based on the Government of Saskatchewan's guidelines for worship during the pandemic which states that congregational singing is not recommended. We also agreed that it would be wise to not make any changes while the impact on Covid-19 cases resulting from the return to fall activities (eg. school, etc.) is still unknown. We are all looking forward to resuming congregational singing and appreciate your patience on this matter.
