

## *Myosotis School*

The school year is coming to a close. There were 48 students at Myosotis School this year. The year closes with a special event for the students and families. It is a highlight of the year for many people, as Haiti is a country with few celebrations. The school lunch program with Trinity Hope has been a positive addition this year. Students received meals 5 days a week for the first time this year.

## *The Church*

The Church (Eglise Indépendante de Dieu) has had some challenges this year. They have stabilized and set-up in the former school building. The camp population decided to build a wall around the overall property to try to prevent others from taking the land. Families and businesses have been asked to pay for the wall. It was a struggle for many families to do this. The Church has been unable to pay a share due to the difficulty of families who have already paid for the wall at home. This has caused some tension in the camp.
