

School Lunch News

Myosotis School is now participating in a school lunch program through Trinity Hope. This partnership began in February 2019. They have 119 schools in Haiti. Trinity Hope provides food such as rice, beans, corn, tomato paste, etc., for the lunches. Their staff visits monthly to confirm distribution is correctly managed with students. Children receive portions based on their age and weight. The meals are 28 cents per child, which is a savings over previous efforts to feed these students.

Monsieur Lafleur of Trinity Hope visits the school.

Students eat the new lunches from Trinity Hope.

Church Building Change

In January 2019, Eglise Independente de Dieu was forced to evacuate their church building due to pressure from a minority of camp members and their police supporters. They were able to remove all belongings and are holding services in the former School building that was built with donations from TVPC. The space has been painted and reconfigured for church services. Plans to convert the larger church building into a nightclub have yet to occur. Occupying a former church has proved to be uncomfortable to the group who forcibly took it. Pray that they will reconsider and return it to the church.

Prayer Requests

Haiti faced terrible unrest for nearly 2 weeks in February. People suffered lack of food, water, gas, etc. Patricia Carwell and children evacuated briefly, but they have returned.

Pastor Manes's brother Marcel is very ill.
